MotherToBaby Utah requests your help. We need your assistance in identifying future funding sources to enable MotherToBaby Utah / Pregnancy Risk Line to continue to provide services as we have for the past 35 years. MTB UT faces the potential loss, by October 2020, of much of the Title V Maternal and Child Health Block Grant funding, approximately two-thirds of our operating budget. Please click on the “Survey” button at www.mothertobaby.utah.gov and take a few minutes to answer the questions to give us an idea of how you or your organization utilizes MTB UT services and share any funding suggestions you may have. Thank you.
